

The Project

Planmac Engineering Inc. (Planmac) has been retained by the County of Peterborough to undertake a Class Environmental Assessment (EA) and Detailed Design Study for the replacement of the Crowe River Bridge, located on County Road 504, approximately 0.2km north of Glen Alda Road, in the Township of North Kawartha (refer to key map below).

The Process

The Class EA study will initially follow the planning and design process for Schedule 'B' projects as described in the Municipal Class Environmental Assessment Document (October 2000 as amended in 2007, 2011 & 2015), published by the Municipal Engineer's Association. Alternatives will be evaluated based on technical and environmental factors and consultation with the public and stakeholders. Two (2) Public Information Centres (PICs) will be held during this study to provide the public with the opportunity to discuss the project and provide input to the Project Team. As the study advances, the Class EA Schedule will be reviewed based on the selected design solution. Subject to the project remaining as a Schedule B undertaking, an Environmental Project File will be prepared and made available for public review at the completion of the study.

Public Information Centre No. 1

The first of the two (2) PICs has been arranged to introduce the Study and present the Problem /Opportunity Statement, Alternative Solutions to the Problem/Opportunity and the Preliminary Preferred Solutions. This PIC will be an informal drop in format, during which time the applicable study material and display boards will be available. Representatives of the Project Team will be on hand to answer individual questions, in a one-on-one format, pertaining to the Project and the Class EA Process. The second PIC will occur later in the Study and will present the evaluation of alternative design concepts and the preferred plan. Members of the public and stakeholders are invited to attend the first PIC to be held as follows:

Date: Thursday, August 24, 2017
Time: 5:00 p.m. to 7:00 p.m.
Location: North Kawartha Glen Alda Community Centre, 3723 County Road 620

Public consultation is vital and key to the success of this study and the County wants to ensure that anyone interested in this study can get involved and provide input. Therefore, you are encouraged to either attend the PIC or review the [materials available on-line](#) on or after August 28, 2017. Comments to the project team will be included in the study. Public input and comments on the project will be received until September 22, 2017 and can be sent to either of the Contacts listed below.
