

### The Project

Planmac Engineering Inc. (Planmac) has been retained by the County of Peterborough (County) to undertake a Class Environmental Assessment (EA) and Detailed Design Study for the replacement of the Crowe River Bridge, located on County Road 504, approximately 0.2km north of Glen Alda Road, in the Township of North Kawartha (see to map below).

### The Process

The Class EA study was initiated as a Schedule 'B' project, as described in the Municipal Class Environmental Assessment Document (October 2000 as amended in 2007, 2011 & 2015), published by the Municipal Engineer's Association. Following the completion of Phase 1 and Phase 2 of the Class EA, including the evaluation of alternative solutions and selection of a preferred solution, the Class EA Schedule was reviewed and subsequently stepped down to a Schedule A+ activity. Schedule A+ activities are pre-approved. As such, the County may proceed to the implementation phase (i.e. design and construction) without following the procedures set out in any other part of the Class EA.

### Public Information Centre No.2

The first Public Information Centre (PIC No.1) was held on August 24, 2017 to introduce the Study and present the Problem /Opportunity Statement, Alternative Solutions to the Problem or Opportunity and the Preliminary Preferred Solution. The second Public Information Centre (PIC No.2) has been arranged to present the preferred design for the replacement of the Crowe River Bridge. Like PIC No.1, this second PIC will be an informal drop in format, during which time the applicable study material and display boards will be available. Representatives of the Project Team will be on hand to answer individual questions in a one-on-one format, pertaining to the Project and the Class EA Process. Members of the public and stakeholders are invited to attend the second PIC to be held as follows:

**Date:** Thursday, November 16, 2017  
**Time:** 5:00 p.m. to 7:00 p.m.  
**Location:** North Kawartha Glen Alda Community Centre, #3723 County Road 620

Public consultation is vital and key to the success of this study and the County wants to ensure that anyone interested in this study can get involved and provide input. Therefore, you are encouraged to either attend the PIC or review the materials that will be available on-line at <https://www.ptbocounty.ca/en/living/notices-of-construction.aspx> on or after November 17, 2017. Comments to the project team will be included in the study. Public input and comments on the project will be received until December 1, 2017 and can be sent to either of the contacts listed below.
